

100G active optical module from Bangladesh

Overview

With a data rate of 100 Gbps and a 10 km transmission distance, this module ensures fast, reliable connectivity over long distances. It features the QSFP28 form factor, 1310 nm wavelength, and supports PAM-4 modulation, providing an efficient solution for high-bandwidth. Huawei 100Gbps QSFP28 Optical Modules deliver high-speed, high-density optical connectivity for data centers, cloud networks, and metro networks. It comes with a larger fiber core diameter, MPO connector type, 850nm wavelength, and 100 Gbps data transfer rate. Compare brands, specifications, and configurations to find the right solution for your business, IT infrastructure, or professional use. This makes it an optimal choice for various networking environments. It handles 100 billion bits of data every second.
