

360 Fiber Optic Channel ABS

Overview

Discover 360mm fiber optical tray for reliable cable management in telecom networks. CE certified, PVC/ABS material, supports optical fiber installation with FV-0 fireproof rating. Fiber management system is designed to protect and route fiber optic patch cords. The successful development of flame retardant plastic, aluminum alloy, steel fiber channel. High-quality with most competitive price; 2. Own lab keeps the quantity reliable; 3. Easy installation, facilitate moves, adds or changes. Working Load per 2 meter: 100KG 240mm - Max. A selection of spillout options shall be available that easily attach using the vertical tee. Featuring fire-resistant materials, modular design, and high-density capacity, our raceways ensure durability, safety, and easy installation.
