

Are imported optical modules subject to tariffs

Overview

At present, the import of optical modules into the United States requires a 10% basic tariff, but according to Executive Order No. 14257, two exemptions have been obtained: one is the exemption from the 245% ad valorem tariff on Chinese goods, and the other is that tariffs from. On April 9, 2025, President Trump announced a 90-day pause on the newly implemented country-specific "reciprocal" tariff increases for countries that have not retaliated, offering temporary relief and stability for many in the industry. All non-retaliating countries were returned to 10%, except for. Currently, the U. import Harmonized Tariff Schedule (HTS) code for optical modules is 8517. 00" shows the result "General Free1/", which indicates that attention should be paid to 9903. Figure 1. BREAKING: As of 1:30 p. has imposed a 125% tariff (an. Optical transceivers are subject to the general 10% tariff on all goods imported into the U.
