

# Categorization of Optical Cable Selection Criteria

## Overview

This fiber optic cable selection guide helps you decide whether now is the right time to buy fiber optic cable, based on three key factors: project phase (new vs. retrofit), installation environment (indoor vs. outdoor), and application standards, and key considerations that one should make before selecting optical fibre products. FTTH Bow-Type Drop Cable (Butterfly Cable) Recognizable by its flat profile, this cable is designed for the "Last Mile. A2 (BIF) glass, which allows it to be stapled or bent around sharp corners. Fiber optic cabling has become the backbone of modern networks, offering high bandwidth, low latency, and long-distance transmission capabilities. multimode, network speed and distance needs, cable jackets/fire ratings, connectors, cost and future-proofing for data and telecom networks.
