

Fiber Optic Terminal Box SC45

Overview

terminal box for outdoor and indoor use. The maximum capacity is 4 fibers. Fiber Optic Wall Mount Box with LC Couplers for Single Mode & Multimode Fiber Optic Cable. (LC 6 Strand OS1/OS2) Need help?

Techlogiks fiber terminal box can be applied in the straight through and branch connection of indoor optical cables, available for the distribution connection of various optical fiber systems, fit for wall mounting. They are especially for mini network terminal distribution. Small Size, Light. Ask for special variants, e. OM4 and OS2 mixed or RJ45 keystones combined with SC adapters. With our own German fiber optic production, we will find the right solution for your IT project! We implement small to large series quickly, easily. Robust and easy to deploy, our termination solutions for indoor and outdoor applications are ideal for single dwelling unit (SDU) and multi-dwelling unit (MDU) configurations. The FTB product family offers modularity and ease of installation supporting multiple application options, significantly. FTB-SC8-WOPA type fiber optic terminal box is designed for FTTx application, which is cable to meet at least 8 users requirements. It can help splicing, splitting, storage and management with suitable space. Simple with light weight in design, special snap clip close system coinvent for user. CommScope has pioneered the industry's most versatile access terminals portfolio, incorporating patented technologies like the DLX® fiber optic connector system with miniaturized hardened connectors, innovative fiber indexing techniques, and superior environmental protection.
