

Fiji Temperature-Controlled Server Rack IP67

Overview

Rackmount Cabinet Panel w/Adjustable Temperature Control (Heat Monitor - Digital Display) Alarm Sensor (Overheat Air Flow Exhaust) Download Spec Sheet This versatile rack cooling fan system can mount to any 19" standard cabinet, and is useful in a wide variety of different. Rackmount Cabinet Panel w/Adjustable Temperature Control (Heat Monitor - Digital Display) Alarm Sensor (Overheat Air Flow Exhaust) Download Spec Sheet This versatile rack cooling fan system can mount to any 19" standard cabinet, and is useful in a wide variety of different. Rack servers delivering high scalability and flexibility, optimized for demanding data center applications. Available in 1U to 5U rack densities, with support for single and multi-socket configurations for x86 processors from AMD and Intel, as well as ARM processors from Ampere, extensive DDR5. Our vast selection of cabinets, thermal management, racks, enclosures for data centers, telecommunications equipment rooms, and enterprise cabling applications help optimize space, reduce energy consumption, and enhance network reliability. FlexFusion™ Cabinets XG offer a unique universal platform. Explore self-contained racks at Server Racks Online, designed to provide a complete solution for housing and managing IT, server, and network equipment. These racks feature built-in cooling systems, power distribution, and noise reduction, making them ideal for offices, data centers, and AV setups. P Series, the industry leading enclosure system, is compatible with virtually all major servers, switches and other networking equipment that provides unparalleled levels of storage, cooling, power integration, cable management and a broad range of rack accessories.
