

H3C Micro Module Data Center

Overview

H3C's Intelligent Computing Centre Micro Module Solution is built to scale intelligently, reduce complexity, and empower the next generation of AI. Here's how it transforms your data center: Go Green, Save Energy - Reduce environmental impact while cutting power costs. H3C UniServer R6900 G6 server, running a full load of 777 high-load virtual machines, achieved a performance score of 13,880 points, setting a new record. H3C's sub-brand Aolynk, designed specifically for SMB (small and medium-sized business) in global markets. more H3C Tech Talk: How is your data center adapting to the demands of AI?

H3C's Intelligent Computing Center Micro Module Solution is designed. To realize application-driven, intelligent connection and construction of new digital connection, and on the basis of the AI-native cloud architecture, H3C provides the secure, reliable, ultra-wideband and lossless intelligent data center network featuring end-to-end automation, integration of. With the aim of "Application-Driven, Intent-Based, "H3C Application-Driven Networking Solution (AD-NET) provides a proactive, adaptive and versatile network. An ultra-compact, palm-sized AI.
