

How much does a four-meter-long cable tray cost

Overview

Steel trays typically cost between \$1.50 and \$8 per foot depending on factors such as the material type, tray size, and other specifications. Cable tray installation cost per meter varies by specifications; GangLong Fiberglass offers kits for raised floor system and facility needs. Cable trays are vital in electrical installations, providing secure pathways for power, communication, and control cables across residential, commercial, and industrial settings. Please click this [link](#) for the ELECTRICAL MATERIAL PRICE LIST if you need the cost of materials for wires/cables, conduit, cable trays and accessories. The electrical installation manhours below include hauling from storage, layouting and installation of wire/cables at a height of 3 meters. ☐☐ For bulk orders or project pricing, the cost can be significantly lower. The main cost driver is the material used in manufacturing: ☐☐ Galvanized steel is the most common. The majority of individuals will consider the cost of the components. Cable trays will tend to be significantly less expensive to use in 2026 than metal pipes due to their faster installation. 2 Why is Conduit So. Steel wireway systems typically fall in the \$8-20 per foot range, while aluminum variants command premiums of \$12-30 per linear foot due to corrosion resistance properties.
