

## How much does it cost to move an electrical distribution box

### Overview

Moving an electrical box typically ranges from about \$600 to \$2,600 overall. The total depends on distance of the relocation, box type (standard duplex vs. GFCI or weatherproof), wall thickness, and the number of circuits affected. The national average is \$1,107 to install a main new electrical service panel. The cost of moving an electrical panel can increase if upgrades to the electrical meter base are. Transferring the main electrical distribution panel involves moving it to a new location. This is done for reasons such as improving accessibility, accommodating renovations, or ensuring compliance with safety codes. Understanding the components of the final bill—labor, materials, project complexity, and administrative. How Much Does Electrical Work Cost in Manchester?
