

Huijue Communication Fiber Distribution Box

Overview

Huijue Communication Equipment specializes in producing ODN product series, including jumperless optical cross-connect cabinets, optical fiber distribution boxes of various core counts, optical cable joint closures, termination boxes, and other optical distribution network. Huijue Communication Equipment specializes in producing ODN product series, including jumperless optical cross-connect cabinets, optical fiber distribution boxes of various core counts, optical cable joint closures, termination boxes, and other optical distribution network. Haian Huijue Network Communication Equipment Co. Since its establishment in 2002, it has been dedicated to providing hardware, software, and technical services for wired and wireless transmission infrastructure network construction to domestic operators such as. Optical fiber distribution frame (ODF) is used for terminating and distributing central office trunk optical cables in optical fiber communication systems, and can easily realize the connection, distribution and scheduling of optical fiber lines. As the degree of network integration becomes higher. As a leading manufacturer and supplier of fiber optic components, we consistently provide high-quality fiber optic components, fiber optic active connectors, optical splitters, fiber optic adapters, fiber optic cables and other products. In fact, the fiber optic industry is developing so fast that. Established in 2001, Shanghai Huijue Network Communication Equipment Co., Ltd is a professional company integrates development, manufacturing and sale in one body.
