

Mauritania Smart Broadcasting Fiber Optic Cable

Overview

The project involves a new high-capacity fiber optic branch connecting Mauritania to Madrid, Spain, through the EllaLink cable system. A 500-Km subsea cable will connect from a new landing station to be built in Nouadhibou—Mauritania's second-largest city—into EllaLink's. The West Africa Regional Communications Infrastructure Program (WARCIP) Project helped to increase the geographical reach of broadband networks and reduce the costs of communications services in Mauritania. The deployment of approximately 1,700 kilometers (km) of fiber optic cable enabled. Mauritania plans to install an additional 2,300 kilometers of optic fiber cable nationwide, Minister of Digital Transformation Mohamed Abdallahi Ould Louly announced on June 10th. The plan, unveiled at the launch of a fiber optic training program, aims to connect all wilayas and moughatas to fiber. EllaLink announced the execution of agreement with the Ministère de la Transformation Numérique et de la Modernisation de l'Administration (MTNMA) of the Islamic Republic of Mauritania for the construction, operation and maintenance of a second international subsea cable that will directly connect. The Mauritania Fiber Optic Cable Market is projected to witness mixed growth rate patterns during 2025 to 2029. 43% in 2027, following an initial rate of 11.
