

Price quote for a 24-meter communication tower

Overview

Telecom tower pricing typically ranges from \$15,000 to over \$150,000 for the structure itself, heavily dependent on height, design type, and current global steel prices. A standard 40-meter lattice tower might cost significantly less than a camouflaged monopole of the same height due to design. Communication mast price represents a critical investment consideration for organizations seeking reliable wireless infrastructure solutions. A complete selection of towers including self-support, lattice steel tower, monopoles and guyed towers, form custom-designed radar towers to broadcast. We support solutions for all types of communication towers. 1 Three-Legged Angular Steel Tower □A cost-effective and economical option. Add to those distinctive requirements zoning, FCC, NEPA and other.
