

Switch Fiber Optic 46

Overview

The American Fibertek 46-PoE+ Series transmits and receives (2) copper 10/100 Base-T Ethernet signals at the RJ45 ports and (1) optical 100 Base-FX over 1 or 2 multimode fibers. The system is comprised of two units forming a point-to-point communications link. Fiber optic switches, multiplexers and demultiplexers block or route optical signals in a fiber optic network. Demultiplexers route a. The MX-46 Media Converter Series is an industrial-grade, temperature hardened IP media conversion family which is BAA compliant and manufactured in America. The MX-46 Series products are stand-alone modules that are an essential component in fiber security solutions. The simplest device is an on/off switch with one input and one output, which allows. VERSITRON manufactures a wide range of fiber optic switches that provide links for your 10Base, 100Base, 1000Base Gigabit, and 10 Gigabit networks simultaneously.
