

The function of the Canon cable management stand

Overview

Canon Cable Management Panels fit directly onto the 19-inch equipment mounting posts of Canon cabinets and have been designed to provide user-friendly cabling support. Open design allows easy use of cable ties or CANNON WRAP if required. Their role in the cabinet is to provide the means to organise excess cordage and/or guide cables to wherever you need them to go without putting too much tension on the plug. CMUs are a must-have for every professional job. Produce fast, high quality and customized cable identifying tubes, tapes and plates, with our lineup of cable management printers. For information on optional products, parts and their functions, see "Optional Products/Software. " The Copy Tray-Q1 and Duplex Color Image Reader Unit-G1 are attached: 1. Room cable managers are wire-mesh trays that carry cables through a room or from room to room.
