

Uganda Fiber Optic Cable Pipeline Project

Overview

The new route supports over 1 terabyte (TB) of capacity and offers low-latency, high-redundancy connectivity to key data centres in Kampala. These include Raxio, Airtel House, and MTN Uganda, and enable improved and seamless interconnection options for service providers and. Tuesday 6th May 2025 - Kampala Uganda: - Bayobab Uganda is proud to announce the successful unveiling of its newest and shortest fibre optic route - the Uganda Railway National Long Distance (NLD) from Malaba to Kampala. This transformative infrastructure project reinforces MTN's. The EACOP is an export pipeline that will transport crude oil from Kabaale Pump Station (PS1) in Hoima district (Uganda) to a marine storage terminal (MST) at Chongoleani, Tanga on the East African coast of Tanzania for export to the international market. The crude oil will reach Kabaale Pump. President Yoweri Kaguta Museveni yesterday launched Phase V of the National Backbone Infrastructure (NBI) in Moroto, Karamoja Sub-region, marking a significant step towards expanding Uganda's internet connectivity. This phase adds 5,845 kilometers of fiber optic cable to the 4,387 kilometers. This EACOP will be designed, constructed, financed and operated through a dedicated Pipeline Company with the same name. Speaking at the unveiling in Kampala, Bayobab Uganda Managing Director Juliet Nsubuga.
