

# Waterproof electrical distribution box coating

## Overview

In order to improve the waterproof performance of industrial power distribution box, manufacturers will apply a layer of special waterproof coating on the surface of the box. This coating has good adhesion and weather resistance, and can effectively resist erosion by rainwater . (1) Waterproof distribution box engineered for harsh outdoor and industrial environments, providing IP65-IP68 sealing against dust, rain, and UV. Typically constructed from durable, corrosion-resistant materials, these boxes are designed to withstand exposure to moisture and harsh environmental. CE-TEK have developed over the last 30 years a comprehensive range of rugged Electrical Junction Boxes specifically for use in most Hazardous Areas within such industries as Oil & Gas, Petro-Chemical, Pharma, waste water, food and beverage, milling etc, indeed any application or location where the. Distribution boxes are a component of your electrical supply system dividing electrical power feeds into subsidiary circuits while offering a protective fuse or circuit breaker for every circuit in a common enclosure. To make sure these boxes work well, the right waterproof levels must be in place.
