

What does GBL mean in the distribution box

Overview

GBL in Logistics commonly refers to Government Bill of Lading, a document issued by a government agency that serves as a receipt for goods and evidence of the contract of carriage. This term is crucial for the transportation and shipping of government-related goods. The General Services Administration (GSA) prescribes regulations governing the use of the bill of lading (BOL), including the United States Government bill of lading and commercial bills of lading, both paper and electronic as referenced in the Code of Federal Regulations (CFR) at 41 CFR Parts. Government bills of lading (GBL's) may be used for international or noncontiguous domestic trade shipments or when otherwise authorized. The GBL serves as a contract of carriage between the government agency and the. In summary, GBL is an abbreviation that can stand for various terms depending on the context, and its interpretation can vary across different fields such as technology, business, education, geography, government, law and other specialized areas. If you have more interpretations or meanings for. A GBL records data pertaining to a move and is used to input data like weight load or distance moved.
